

The **Emergency Response Capabilities Database & Reporting Tool** is a free, web-based resource developed to enhance emergency preparedness and emergency response planning in communities with pipeline infrastructure. It can be accessed at: <http://capabilities.pipelineawareness.org>

Please provide your organization's response capabilities by filling out both pages of this form and emailing it to [pipeline.association@pipelineawareness.info](mailto:pipeline.association@pipelineawareness.info). Your information will be entered into the database and included in the online reports. After your information has been entered, you will receive a confirmation e-mail with your assigned username and password.

## Organization Information
